Education

PARIVARTHANA BUSINESS SCHOOL Mysore, Karnataka
Master of Computer Applications (MCA) 2024 – 2026
Aggregate: 91%

JSSCACS, OOTY ROAD Mysore, Karnataka
Bachelor of Computer Applications (BCA) 2021 – 2023
Aggregate: 82%

JSS PU COLLEGE Nanjangud, Karnataka
Pre-University Course (Science) 2020 – 2021
Aggregate: 72%

NIRMALA CONVENT HIGH SCHOOL Gundlupete, Karnataka
SSLC 2018 – 2019
Aggregate: 81%

Experience

THEODY SVADHYAY TRAILBLAZER
Data Analyst Intern November 2025 – February 2026

- Collected, cleaned, and analyzed structured datasets to derive actionable insights for business and learning programs.
- Built interactive dashboards using Excel and Power BI to track key performance metrics.
- Assisted in data-driven decision-making by identifying trends, patterns, and anomalies in organizational data.

RANKBOOK LEARNING AND SOFTWARE SOLUTIONS Mysore, Karnataka
Python Programming Intern 2024

- Gained hands-on experience writing Python scripts and working on real client projects under close mentorship.

Research Publications & Presentations

AI-ENHANCED FRAUD DETECTION IN FINANCIAL MARKETS August 2025

A Machine Learning Framework Using Y-Finance Derived Market Data | IEEE / Scopus-Indexed
KrupaTechCon 2025 — International Conference on Digital Disruption and Intelligence Management, Bengaluru

ACADEMIC IMPACT OF PG ACCOMMODATION STRESS — ML-BASED EVALUATION April 2026

National Conference on Emerging Technology and Commerce in the AI Era | Kuvempu University

Sahyadri Commerce and Management College, Shivamogga, Karnataka (8 April 2026)

Projects

REAL-TIME SMART-GESTURE AND SIGN RECOGNITION SYSTEM 2026

- This project is designed to recognize hand gestures and sign language in real time using a webcam.

MOTION DETECTION SYSTEM USING PIR SENSOR WITH EMAIL ALERT 2026

IoT / Python

- Built an IoT-based security system using a PIR sensor to detect motion in real time.

EMPLOYEE ATTRITION PREDICTION SYSTEM 2026

- This project uses Machine Learning to predict whether an employee will leave the company or stay based on employee data.

MEDICAL IMAGE BASED SKIN DISEASE CLASSIFICATION USING DEEP LEARNING 2026

- Developed an AI-based system to classify skin diseases from uploaded images and generate automated health reports with recommendations and precautions.

Leadership & Activities

Certifications OUTBOUND LEARNING (OBL) WORKSHOP — SAKLESHPURA 2025

Participant

- Completed a 3-day experiential learning program focusing on teamwork, leadership, and problem-solving.

Certifications

- Information Security & Cyber Forensics — SWAYAM (4 credits, 75%)
- Programming with Generative AI — SWAYAM (2 credits, 60%)

Achievements

- Best Presentation Award — Science Speech Competition (topic: Periodic Table).
- State-Level Badminton Tournament participant — Inter-College Sports Association.

Skills & Interests

Technical: Python (Proficient), C, C++, Java (basics), HTML, CSS, JavaScript
Database: SQL
Tools & Platforms: Visual Studio Code, Canva
IoT & Hardware: Raspberry Pi, Arduino, PIR sensors, SMTP integration
Language: English (Proficient), Kannada (Native)
Soft Skills: Leadership, Communication, Teamwork, Problem-solving
Interests: graphic designing
